

Hello Everyone!

In the wake of the COVID-19 pandemic, the health and safety of our patients and staff continues to be our top priority!

Let's all do our part to prevent the spread of coronavirus by staying home as much as possible, especially if anyone at home is sick.

But you can still count on us for all of your pediatric needs, from the comfort of your own home.

We are now offering Telehealth visits!

Our providers can now connect with you via smartphone, tablet, or computer. Please contact our office to schedule a telehealth visit. We are able to see the following common visits and more:

- Cough and cold symptoms
- Flu
- Stomach ache/vomiting/diarrhea
- Fever
- Seasonal allergies and sinus infections
- Rashes
- Sprains and strains
- Pinkeye/conjunctivitis
- Routine follow-up visits (ADHD and other concerns)

Please also note the following updates to our office policies and procedures:

1. We will be seeing only well-child appointments for patients under 24 months and 4/5 year olds for vaccinations. These will be conducted on weekday mornings and on weekends.
2. In order to minimize exposure, we are asking those patients coming in for well-child check ups to leave additional people at home or allow them to stay in the car if age appropriate.
3. **If the patient or anyone in the home is sick**, please reschedule well-child appointments for a later date and consider a telehealth appointment for any illness or concern.

We do appreciate your patience and understanding!

Sincerely,

Fall Hill Pediatrics
